

ALEX RIVER

PRODUCT ANALYST

alex.river@example.test | Berlin, Germany | portfolio.example.test

PROFILE

Product analyst focused on customer journeys, experimentation, and clear decisions from messy data. Builds reliable analysis workflows for cross-functional teams.

EXPERIENCE

Northstar Commerce

2022 - 2025

Product Analyst

- Improved checkout conversion by 18% through funnel analysis.
- Built weekly retention dashboards used by product and growth teams.
- Designed experiment readouts that reduced decision turnaround time by 30%.

Signal Works

2020 - 2022

Data Operations Associate

- Automated recurring data quality checks across five source systems.
- Partnered with engineering to document metric definitions and ownership.

SELECTED PROJECTS

Customer Journey Review

Mapped friction across signup and checkout, then prioritized improvements with product partners.

Metrics Reliability Kit

Created reusable SQL checks and a lightweight ownership guide for trusted weekly reporting.

Experiment Scorecard

Standardized hypothesis, sample-size, and outcome fields so experiment decisions stayed comparable.

EDUCATION

BSc, Information Systems

Example Institute | 2016 - 2020

TOOLS & METHODS

SQL • Python • Excel • dbt • Tableau • A/B testing • Funnel analysis • Cohort analysis • Stakeholder communication

WORKING STYLE

Writes down assumptions, checks definitions before comparing metrics, and makes analysis easy for others to reproduce. Comfortable presenting concise recommendations to mixed audiences.
